# Expertise from a single source.

From service planning and quality assurance to mechanical production – efficient and reliable.

We offer design, mechanical production, quality assurance, interior assembly and support processes such as purchasing and logistics, all from a single source. On our 15 processing machines, we offer you the perfect mix of repairs for almost all defective parts and the production of custom components.

## **PRODUCTION CENTER FOR MAXIMUM SYSTEM AVAILABILITY**

We manufacture spare parts in original equipment quality around the clock as required. The employees in our Service Center have many years of experience and extensive technical expertise in the manufacture and repair of new and spare parts.

Bed-type milling, portal milling, turning and herringbone gear machines as well as high-quality measuring and testing tools are used during production or repair. This enables us to respond immediately and produce the required spare parts for you quickly and in the highest quality – for our own brands and all common brands from other manufacturers.

We also ensure fast delivery from our stock of over 15,000 spare parts. We offer our customers all machining processes from a single source – fast, precise, dimensionally accurate.

machining a screw

# Fast. Flexible. Reliable.

We are your service specialist for the repair of almost all defective components and manufacture of custom components from any manufacturer in forming technology.

## IN-HOUSE PRODUCTION OF CUSTOM PARTS

Thanks to the extensive manufacturing capacity at our in-house ANDRITZ Schuler Service Center, we can manufacture virtually any custom part for you quickly and reliably.

## WORLD'S LARGEST PRESS-SPECIFIC SPARE PARTS WAREHOUSE

Immediately available for you: in addition to numerous standard parts, we also keep core components and especially critical parts in stock in our central spare parts warehouse.

## EXPERT SUPPORT

More than 100 experienced service technicians will assist you with professional advice as well as disassembly and reassembly if required.

## RELIABLE REPAIR DEFECTIVE COMPONENTS

To save you from having to purchase expensive new parts, we can also repair any type of component from all manufacturer. Quickly and reliably.

# SERVICE MADE FOR YOU

## EXPERT SUPPORT

In line with our philosophy, we offer you the best service around the clock – even at weekends and on public holidays.

## UNIQUE MACHINE POOL

Thanks to the exceptional selection and extensive stock of raw materials, minimal downtime is guaranteed.

# Our mission: the fastest response to machine downtimes.

## IMMEDIATE ASSISTANCE. HIGHEST QUALITY.

If you need a repair, every minute counts. At the ANDRITZ Schuler Service Center, you benefit from short distances, quick decisions and perfectly interlinked sequences – from sales to design. You will receive your offer in record time. We also offer a unique setup consisting of an extensive raw materials warehouse, machine pool and qualified employees with the latest expertise. Our working hours are flexible to suit your needs and we are available around the clock on request. This enables us to reduce downtime to a minimum in the event of damage, even with a custom component.

**"Specifically, we managed to manufacture components up to 88% faster than the original manufacturer."**

**MARKUS LEHMANN**  
Head of Service Operations  
& Plant Manager

# **"Our Service Centers are designed to be able to serve customer needs immediately."**

**RALF-DIETER WOLFARTH**

Head of Service Center Göppingen  
& Supervisor Assembly Minting

Service Centers in Göppingen (Germany) and Canton (USA), we machine high-quality components such as pressure points, transfers, drive trains, eccentric gears, screws, slides, drawing cushions, hydraulic cylinders, control blocks and wear parts – quickly, precisely and to the highest quality.

Whether small, large or especially complex, we process any part. We manufacture screws weighing up to 65 tons on our large lathe – our crane moves workpieces weighing up to 230 tons.

## **YOUR BENEFITS**

- Various processing machines
- Machining processes, grinding, gear manufacturing, drilling, milling, turning
- Parts rework
- Manufacturing specialist with high vertical integration and capacity
- Immediate expert assessment
- For components of any size
- Modern methods for material testing and analyses
- In-house quality assurance for high product quality – various measurement techniques in use
- Mechanical, electrical & hydraulic assembly

## THE ANDRITZ SCHULER COMPETENCE

Offering customized cutting-edge technology in all areas of forming – from the networked press to press shop planning. In addition to presses, our products include automation, dies, process know-how and service for the entire metalworking industry. Within the ANDRITZ Metris platform, we combine digital solutions for networking forming technology and develops them continuously to further improve line productivity and availability. For battery production in gigafactories, we provide equipment and service in many process steps specially for cell assembly and formation. Our customers include automotive manufacturers and suppliers, as well as companies in forging, household appliance and electrical industries.
